

Servo Spot C-type Gun

High Force, High Current

Light Weight

Features

Developed for welding Aluminium.

Designed to accept motors from all Robot manufacturers.

Symmetrical design improves working envelope.

Light weight allows high speed robotic movement.

Short circuit current 50,000 Amps.

Electrode force 12kN.

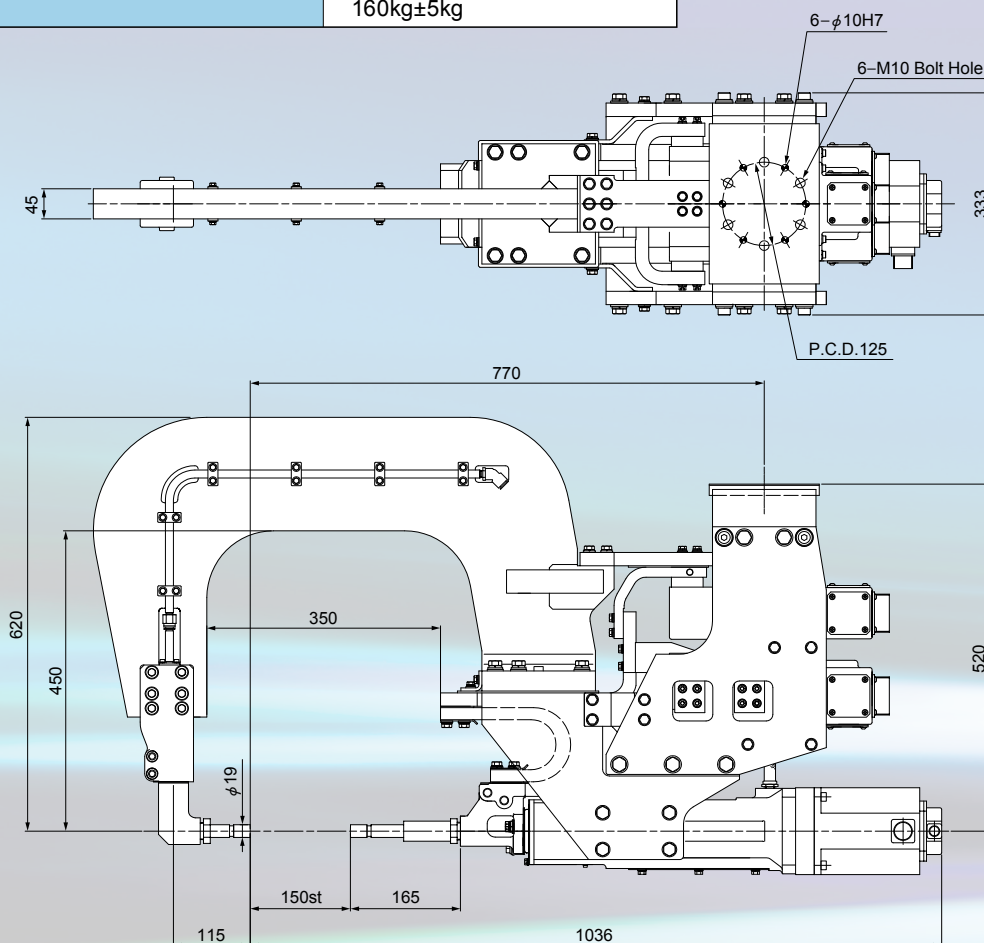

DENGSHA TOA co., LTD.

Base specifications

Electrode Force	12kN
Stroke	150mm
Throat depth/Gap	450/350mm
max.short circuit current	50,000A
Duty cycle	5% (at Max. welding current)
Equivalent Continuous Current (I _{2P})	11,800A
Mass	160kg±5kg

Dimensions
